SUMMARY

Mobile Application Developer with 5+ years of experience, specializing in Flutter, with experience in building, testing, and maintaining cross-platform mobile applications using Dart, focusing on performance, scalability, and user experience.

EXPERIENCE

- ❖ Flutter Developer, Fiveline Website Services Oct 2025 — Current - Doha, Qatar
Developed cross-platform mobile applications using Flutter and Dart, integrating RESTful APIs, Firebase services, and state management solutions (Provider, BLoC). Implemented responsive UI following Material and Cupertino guidelines, ensured clean code, performance optimization, and collaborative development using Git.
- ❖ Mobile Application Developer, Lamlan Digital Solutions Apr 2025 — Oct 2025- Doha, Qatar
Built and deployed production Flutter apps for iOS and Android. Delivered custom UI using Material Design. Integrated APIs and third-party packages for core features. Collaborated across teams to meet project timelines.
- ❖ Mobile Application Developer, SARL Dowaya Mar 2023 — May 2024 - Sidi Bel Abbes, Algeria
Built and deployed production Flutter apps for iOS and Android. Delivered custom UI using Material Design. Integrated backend APIs and third-party packages for core features. Collaborated across teams to meet project timelines.
- ❖ Trainer (Flutter & Dart development), Private school Sep 2022 — Mar 2023 - Sidi Bel Abbes
with experience delivering hands-on training in mobile application development, covering Dart fundamentals, Flutter architecture, UI development, and real-world project implementation.
- ❖ Freelancer Fullstack Developer, Remotely Feb 2019 — Sep 2022
Full-Stack Developer with experience in building and maintaining web and mobile applications, handling front-end development, back-end APIs, databases, integrations, and deployment, with a focus on performance and scalability. Published and maintained apps on Google Play and App Store.

EDUCATION

- ❖ The Higher School of Exact Science 2021 — 2021
Bachelor's in Software Engineering, Algeria-Sidi Bel Abbes
- ❖ The Higher School of Exact Science 2024 — 2024
Master's in Web and Knowledge Engineering, Engineering, Algeria-Sidi Bel Abbes

PROJECTS

❖ AwashZ – On-Demand Car Wash & Auto Services Platform

Developed a location-based mobile application that enables users to book professional car wash and auto services delivered directly to their location. The platform streamlines service scheduling, tracking, and payment processing while providing administrative tools for operational management.

Key Contributions & Features:

- Designed and developed real-time service booking and scheduling system
- Implemented location-based service request functionality
- Built order tracking and status management workflows
- Developed role-based access for customers, service providers, and administrators
- Created an admin dashboard for booking management and performance monitoring
- Integrated secure backend APIs with scalable architecture
