PROFESSIONAL SUMMARY

Technically versatile IT support professional with 5+ years of hands-on experience in troubleshooting, system configuration, deployment, and end-user support. Strong working knowledge of Windows, macOS, and Linux environments, networking fundamentals, cloud platforms, and identity & access management. Skilled at diagnosing and resolving hardware and software issues, setting up and maintaining systems and user accounts, onboarding and supporting users, and producing clear technical documentation. Trilingual (Arabic, English, French), based in Doha with a transferable QID; open to on-site and remote roles across Qatar, EMEA, and global teams.

TECHNICAL SKILLS

Operating Systems: Windows 10/11, macOS, Linux (Ubuntu/Debian), command-line administration, OS setup & updates

Support & Help Desk: Incident troubleshooting & resolution, remote support (RDP, SSH, TeamViewer/AnyDesk), software install & configuration, user onboarding, service-desk/ticketing workflows (Jira)

Networking: TCP/IP, DNS, DHCP, HTTP/HTTPS, VPN, Wi-Fi/LAN setup & connectivity troubleshooting

Identity & Access: User account provisioning, role-based access control (RBAC), authentication, Active Directory & identity-management concepts, AWS IAM

Cloud & Infrastructure: AWS (IAM, S3, CloudWatch), Google Cloud Platform, Docker, system monitoring, logging & backups

Productivity & Accounts: Microsoft 365, Google Workspace, email & account administration, Git version control

Hardware & Devices: Laptop/desktop setup & diagnostics, printers & peripherals, mobile devices (iOS/Android), routine maintenance

Scripting & Documentation: Bash, Python, SQL (PostgreSQL, MySQL) for automation & data tasks; knowledge-base articles, runbooks, user guides

PROFESSIONAL EXPERIENCE

Software Developer & IT Support

Jun 2025 – Present

Fiveline Website Solutions — Doha, Qatar

- Provide first- and second-line technical support, troubleshooting and resolving software, configuration, and system issues to keep services and applications running reliably for users.
- Configure and administer cloud services and user access (AWS IAM), and set up system monitoring, logging, and alerts via CloudWatch.
- Set up, update, and troubleshoot Windows, macOS, and Linux environments, resolving installation, configuration, and connectivity problems.
- Document fixes and procedures, support colleagues and stakeholders, and use Git for change tracking and version control.

Software Developer & IT Support (Contract)

Mar 2025 – Jun 2025

Lamlan Digital Solutions — Doha, Qatar

- Delivered end-to-end technical support on fixed timelines, from system setup and configuration through deployment and post-go-live issue resolution.
- Diagnosed and resolved connectivity, authentication, and integration faults to restore service quickly.
- Maintained configuration and procedure documentation and provided responsive support to clients.

Software Developer & IT Support

Jul 2024 – Mar 2025

SATL DOWAYA — Sidi Bel Abbès, Algeria

- Deployed, configured, and maintained production systems, handling setup, updates, and ongoing support.
- Investigated and resolved technical faults and access issues to keep core services available.
- Worked across teams to resolve user-reported problems within agreed timelines.

IT Trainer & Technical Support

Sep 2022 – Mar 2025

Private Institute — Sidi Bel Abbès, Algeria

- Trained users at all skill levels and provided hands-on technical support, explaining solutions clearly — a core help-desk and communication competency.
- Diagnosed and resolved environment, installation, and configuration issues across Windows, macOS, and Linux and multiple devices.
- Created user guides and troubleshooting documentation and supported users from setup through completion.

IT Support & Systems Technician (Freelance)

Sep 2019 – Sep 2022

Self-Employed — Algiers, Algeria

- Acted as primary technical point of contact for clients, handling setup, configuration, troubleshooting, and maintenance across systems, devices, and networks.
- Administered databases, hosting, user accounts, and cloud services, and resolved performance, connectivity, and access issues.
- Translated non-technical requests into clear solutions and maintained support documentation.

EDUCATION

Master's in Web and Knowledge Engineering

2024

University Djillali Liabes — Sidi Bel Abbès, Algeria

Bachelor's in Software Engineering

2021

University Djillali Liabes — Sidi Bel Abbès, Algeria

PROFESSIONAL DEVELOPMENT

- ITIL 4 service-management fundamentals — self-study.
- Actively strengthening foundations in networking, Linux administration, and cloud & identity management for IT support roles.
